

Nguyen Hoang Tuan

Web Developer

Name 06/04/1997

Birth 12/10/2003

Phone +84 827415586

Email nguyenhoangtuan12102003@gmail.com

Address Ho Chi Minh, Viet Nam

Overview

- Strengths: Back-end web application development
- Proficiency in HTML, CSS, JavaScript
- Have Experience working on Java, ReactJS, NoSQL database , JSON , Docker and Restful API
- Proficient use of source code management tools: GIT, GITHUB
- Proficiency in operating systems: Linux (Ubuntu) Windows
- Ability to learn and apply new technology quickly
- Current working location: Ho Chi Minh, Viet Nam

Education

9/2021 - now

Sai Gon University

Major - Software Engineering

GPA : 2.96/4

Skills

- Main**
- HTML, CSS, JavaScript (ReacJS), TaildwindCss, Bootstrap
 - Java (Spring Boot, Spring Data JPA, Spring Security, Spring Kafka, Microservices)
 - PHP
 - C# (.NET core)
 - RESTful API
 - MySQL, SQL Server
 - Docker
 - WebSocket
- Other**
- Tools(IntelliJ, VS Code, Postman)
 - Design Pattern (Dependency Injection, Unit of Work, Repository Pattern)

Projects

Website Smart Note

(2/2025 - now)

Descriptions	Developed a web application that allows users to manage notes with basic CRUD operations (including images, files, links, and text formatting). The platform also features task management, enabling users to add tasks, mark them as completed, receive due date reminders, and view task statistics such as recently created, on-time, and overdue tasks. Additionally, the system supports sharing via Gmail or public links, and includes real-time messaging functionality.
Number of members	1
Position	Fullstack
Responsibilities	<ul style="list-style-type: none">- Login (Google, Facebook) and authentication JWT- Notes management allows CRUD on text, images, files, comments and sharing with other users.- Task management (CRUD, mark complete) and sharing with other users.- Statistics of on-time, late jobs and most created jobs in the job group.
Technology in use	<ul style="list-style-type: none">- Frontend: React TypeScript, TailwindCss- Backend : Java (Spring Boot, Spring Security, Spring Data JPA, Spring Kafka) , MySQL , Websocket, Docker- Architecture: Layred Architecture(Controller - Service - Repository - Entity)
Link Github	https://github.com/hoangtuan203/Project-SmartNote.git

Website Tour Management

(9/2024 - 11/2024)

Descriptions	Developed a web platform enabling users to browse, search, and book tours, as well as provide post-trip reviews to enhance user engagement and service quality.
Number of members	4
Position	Fullstack
Responsibilities	<ul style="list-style-type: none">- Login (Google, Facebook) and authentication JWT- CRUD Account Management, Feedback Management- Flexible authorization for each account- Feedback Tour (Comment, Stars) in Client
Technology in use	<ul style="list-style-type: none">- Frontend: ReactJS- Backend : Java (Spring Boot, Spring Security, Spring Data JPA), MySQL , VNPay- Architecture: Layred Architecture(Controller - Service - Repository - Entity)
